'Open bridges' prove peaceful coexistence possible, Dayan says

JERUSALEM (UPI) — Defence Minister Moshe Dayan said here yesterday that the "open bridges" to Jordan was the kind of arrangement Israel had in mind with Egypt if the Suez Canal were opened.

He said that the estimated number of 75,000 summer visitors from Arab countries was ample proof of the possibility of peaceful coexistence, adding that Israel intends to lay the groundwork for peaceful living together of its population with that of Judea and Samaria, as well as peaceful relations with Jordan.

The Defence Minister was speaking in one of the make-shift shelters to a group of newsmen who came down to observe the traffic under the annual three-month Summer Visits Scheme which began last Tuesday.

Mr. Dayan expressed his belief that the open bridges policy represented "one step towards a final peace arrangement." "Whatever the borders, there can be a peaceful way of life," Mr. Dayan said, adding that a new kind of regime was being established to promote chances for a final peaceful arrangement with the neighbouring countries.

The Defence Minister said he wanted a similar interim arrangement with Egypt, one that "would not restrict the freedom of movement" between the two sides. In reply to a question, Mr. Dayan reiterated his belief that the current mood in Egypt was not heading towards peace, but war. However, he (Continued on Page 2, Col. 3)

Trial of first 9 accused in Soviet 'hijack' case

MOSCOW (UPI) — Authorities in the Moldavian capital of Kishinev yesterday began a trial of nine Soviet Jews accused of anti-Soviet activities, Jewish sources said today.

The trial was the first in a series of trials against persons who were alleged to have had connections with the alleged 1970 plot to hijack a plane for use in escaping the Soviet Union and emigrating to Israel.

So far, 26 persons have been convicted and sentenced to prison terms of from one to 10 years in the case. The Kishinev trial was expected to be the last in the series of prosecutions connected with the hijack attempt.

British officials, meanwhile, declined to add to an official statement on Sunday night that Anatol Fedoseyev, 52, who disappeared in Paris last month, was in this country and had been given permission to stay.

So far as was known, Mr. Fedoseyev had not formally asked for political asylum in Britain, the sources said. It was always possible that he might want to move on after a spell in this country. There have been suggestions he might want to go to the U.S.

Meanwhile, the mystery Russian was believed to be staying with friends in the London area, under a tight security guard.

In the Commons yesterday, the deputy speaker, Sir Robert Grant-Ferris, rejected a request by an opposition Labour Member for an emergency debate, on the Soviet engineer's defection.

Scottish Labour M.P. Tam Dalyell claimed that "de-briefing" of the Russian in Britain could only jeopardize the whole of the strategic arms limitation talks between the U.S. and the Soviet Union.

A leading expert on Russia, Professor Leonard Shapiro, warned in an interview that the Soviet K.G.B. (secret police) might try to kidnap or kill Fedoseyev if they considered him important enough. "The K.G.B. have done such things before," he told the London "Evening Standard."

The meeting began with African leaders ascending the blue-carpeted steps of Africa Hall and taking their places at a horseshoe of desks in the circular assembly room.

ARRANGEMENTS FOR TAX-FREE CUSTOMERS.

The sources said the man accused of being the ringleader was an engineer, David Chernoglas, 31, married with one child. He was arrested on June 15, 1970, on the day a series of secret police raids broke up the hijack plot.

The other defendants were Anatoly Goldfeld, 25, Elieel Shur, 35, Alexander Galperin, 26, Harry Kirshner, 25, Arkady Volashin, 25, David Rabinovich, 24, Abraham Trakhtenreich, 24, and Semyon Lavit, 24.

Goldfeld and Shur, like Chernoglas, were from Leningrad, the others were from Kishinev.

ONE VISA GRANTED
Earlier, Jewish sources said Soviet authorities have granted a new exit permit to Jewish Orientalist Mikhail Zand, whose permit had been cancelled because of his protest activities.

The sources said Mr. Zand expected to leave for Israel before June 24.

Mr. Zand, an expert on Persian literature, was one of a group of Jews arrested in March when they refused to leave the office of Soviet Prosecutor-General Roman Rudenko. He received a 15-day jail sentence for "hooliganism" and his newly obtained exit permit was cancelled along with those of three other protesters.

But another Jew who was attacked in the press earlier this year for slandering the Soviet Union has been sentenced to three years' detention for spreading anti-Soviet fabrications, Jewish sources reported yesterday.

The man, Valeri Kukul, was tried in the Ural city of Sverdlovsk last week, nearly four months after a local newspaper denounced him. The newspaper, "Uralski Rabochi," said Mr. Kukul and another Jew had made preparations to leave for Israel and considered it the duty of every Jew "actively to help the Jewish state flourish regardless of its social system."

In Moscow yesterday a group of 32 Lithuanian and Latvian Jews sought an explanation of the legal basis for the refusal to many of them of permission to emigrate to Israel on the ground that they had a higher education, Jewish sources said. Their request to see the law justifying this motivation for refusal of visas was turned down at the reception office of the Supreme Soviet (parliament).

The Soviets in the last few months have greatly increased the number of Jews allowed to leave the Soviet Union for Israel. Up to June 1, of this year, a total of 3,500 persons had been allowed to emigrate, more than for any entire year since the State of Israel was formed in 1948.

ADDIS ABABA (AP) — Ethiopian Emperor Haile Selassie opened a summit of African states yesterday by asserting it is "self-deceiving and a waste of time" to advocate a dialogue with white-minority territories not ready to listen.

"The freedom of millions is not a commodity subject to bargaining," the Emperor, told the Eighth Organization of African Unity summit conference.

Thirty-nine of the 41 O.A.U. members are represented at the conference but only 11 — the fewest ever — by heads of state or government. An O.A.U. source said a significant number of leaders apparently stayed away because they feared a crisis over the issue of peaceful contacts with South Africa, Rhodesia and Portuguese territories.

The meeting began with African leaders ascending the blue-carpeted steps of Africa Hall and taking their places at a horseshoe of desks in the circular assembly room.

Jordan to keep paying its West Bank officials
AMMAN (Reuters). — The Jordanian Government will continue paying salaries to its employees on the Israeli-administered West Bank who are not being paid by the Israeli authorities, an official source said. "He was commenting on reports that the Jordanian Government had decided to freeze the salaries of Arab civil servants on the West Bank."

Thant suffers dizzy spell, cancels voyage

UNITED NATIONS (AP). — Secretary-General U Thant suffered a dizzy spell in his 38th floor office on Saturday and was at his home yesterday undergoing medical care, a U.N. spokesman disclosed.

Because of his condition he has cancelled a trip to Moscow and an official visit to several other Communist countries. He was scheduled to leave for Moscow today.

The spokesman could not give the exact nature of Mr. Thant's illness, but said it was determined that he had not suffered a heart attack. He added his condition was not regarded as critical.

Thant, 62, is completing his second term as Secretary-General. He has announced he will not serve beyond the expiration of his present term next December 31.

New Jewish Agency comes into being

The Assembly of the Reconstituted Jewish Agency came into being in Jerusalem yesterday afternoon. Three hundred Jewish leaders from 27 countries — half representing the World Zionist Organization, the other half major Jewish welfare and fund-raising organizations — formally signed the agreement for the Agency's expansion to include an equal number of "non-Zionist" members.

The first to sign the Scroll of Agreement at 1.30 p.m. at the Weizmann Hall in the Jewish Agency Building was Arye Pincus, the Agency's Chairman. He was followed to the dais on which the Scroll was laid out by Mr. Max M. Fishman, of Detroit, Michigan, Chairman of the United Israel Appeal and President of the Council of Jewish Federations and Welfare Funds in the U.S. For the next

three hours, hundreds of Assembly delegates slowly filed into the flower-bedecked hall, under a huge photograph of Dr. Weizmann being sworn in as Israel's first President, to affix their signatures to the document.

FESTIVE OPENING
In the evening, at a festive opening session held in Binyanei Ha'Ooma, Mr. Pincus addressed the Assembly in the presence of Prime Minister Golda Meir, Cabinet members and hundreds of distinguished guests, as representing "the great majority of the Jewish people" in its composition and in its scope.

He said "a place of honour" had been left for the absent Soviet Jewry to whom, in the name of the entire Assembly, he sent an assurance of complete solidarity — as well as to the Jews persecuted in Arab countries. "We want to assure them that we shall not rest and we shall not be silent until we rescue them and bring them to a safe haven — the State of Israel."

HOPES REALIZED
Mr. Pincus described the present enlargement of the Agency as the realization of Dr. Weizmann's hopes at the time of its founding, in 1929, before the enormous events of the coming years — the Holocaust, the establishment of the State of Israel, and the Six Day War — "made conditions ripe for the forming of the expanded Jewish Agency." Speaking on behalf of the World Zionist Organization which, "in effect, has constituted the Jewish Agency since 1955," Mr. Pincus welcomed "the new 50 per cent who are now joining the partnership" of the Jewish people. In thus joining in, he said, they were giving "greater force" to the words of Hebrew poet Chaim Nachman Bialik in a letter to Dr. Weizmann 42 years ago, when the (Continued on Page 3, Col. 4)

Later in the afternoon, Speaker Barkat gave orders that the remaining strikers must not be moved by force. At 10 o'clock last night, as an armed Knesset Guard stood by, three figures lay cocooned in blankets at the pedestrian crossing which traverses the road to the gate. Behind them stood a bright red pram, a baby asleep inside.

The strikers — all members of one family — left their "encampment" and sat down on the road. (Continued on Page 3, Col. 5)

Phnom Penh India charges in panic as rice price up

PHNOM PENH (AP). — The shadow of a grave economic and political crisis faced the Cambodian capital last night after speculators and panic buying caused the price of rice almost to double overnight.

Rice, Cambodia's basic food, cost 1,200 rials (about \$2) a sack on Sunday in Chinese rice stores. Yesterday, as the Government appealed for calm, the price shot up to as much as 2,000 rials for the 100-kg. sack that the average Cambodian family of six eats in a month.

The Chinese control Cambodia's rice trade, a fact bitterly resented by the Khmer majority. It adds the explosive of racial tension at a moment when anti-Chinese feeling is already dangerously high, in the view of veteran observers here.

Appealing for calm, Cambodia's youthful Minister for Industry, Commerce and Food, Khung Thay Ley, promised that stock of rice held by the state-owned trading corporation would be released at the official price of just over 600 rials a sack to break the shortage. But observers here were sceptical as to whether the Government possessed means to distribute the large quantity of rice needed to feed Phnom Penh's two million inhabitants, or whether the regime could prevent Government rice from reaching the black market.

AFTER MIDNIGHT
Customs workers meeting in Ashdod yesterday declared their intention to hold another two-hour strike on Thursday if their demands are not met. Further "sanctions" were also threatened.

Italy's 250,000 hotel employees went on strike yesterday, leaving the country's tourists to make their own beds, get their own meals and carry their own luggage.

India charges Pakistani fire over border

NEW DELHI — Pakistan troops stationed along the border of India's West Bengal State fired mortars into Indian territory for the third straight day yesterday, military sources said.

They said an unspecified number of rounds landed about 3,000 yards from the Patraoite-Banole border crossing, 55 miles north-east of Calcutta. The crossing was the most important one on East Pakistan's western frontier until the civil war erupted there March 25.

U.S. Secretary of State William Rogers' special assistant for refugee and migration affairs, Frank L. Kellogg, arrived in New Delhi yesterday to confer with Indian Government officials on the refugee situation. The number of East Pakistani refugees now in India exceeds six million. During his five-day visit, Kellogg is also scheduled to visit refugee camps along the border.

Prime Minister Indira Gandhi said her government will not allow the refugees to remain permanently in India, media reports said yesterday.

Judge rules 'Post' may publish Pentagon papers
WASHINGTON (Reuters). — A federal judge yesterday ruled that the "Washington Post" can resume publication of a series of articles based on secret Pentagon documents on the origins of the Vietnam war. Judge Gerhard Gesell said that the government had failed to meet its burden of proving that publication of the documents would result in irreparable injury to the U.S. Government lawyers hurried to the U.S. Court of Appeals to seek an immediate hearing there. (Earlier story — Page 2).

Harmel urges new M.E. peace drive

BRUSSELS (Reuters). — Belgian Foreign Minister Pierre Harmel on Sunday night called for a fresh initiative to seek a speedy solution to the Middle East crisis.

He was speaking to reporters after flying home from Cairo at the end of a five-day official visit.

Mr. Harmel, who also visited Syria and Lebanon, described his contacts with Middle East leaders as "extremely precious." He had gained a firm impression of a general willingness to find a peaceful solution to the Middle East crisis, he said.

Mr. Harmel added that the six-nation Common Market was helping the peace efforts of Dr. Gunnar Jarring and U.N. Secretary-General U. Thant.

Lebanon claims raid
BEIRUT (Reuters). — An Israeli patrol entered Yarin, about two kilometres from Lebanon's southern border and blew up five houses early yesterday, a military spokesman said here. He said there were no casualties.

San Marino-China
SAN MARINO (AP). — This tiny republic of 18,000 population and gigantic mainland China yesterday exchanged documents establishing formal diplomatic relations.

Father Jean Parent, from France, yesterday planted a tree in the Grove of Righteous Gentiles at the Yad Vashem Memorial Authority. Father Parent, a member of the French Resistance, saved many Jews from death under the Nazis.

An Italian Press Exhibition is being held this week in Haifa at the Italian Consulate, Rehov Meir. The exhibition is open until Saturday.

Ariel Weinstein, economic correspondent of "Ma'ariv," Nahman Shah, military correspondent of Israel Broadcasting, Ya'acov Khazma, editor of "Al Anba" and Ari Rath, News Editor of The Jerusalem Post, will answer questions from the floor in their respective fields at the Vocal Newspaper in Beit Ha'am in Jerusalem on Friday night, June 25, at 9 o'clock.

This Friday's vocal newspaper at Beit Sokolow, Tel Aviv, will feature the President of the U.A., Mr. Max Fisher, and Jewish Agency Treasurer Arye Duizin; Editor Mr. Yitzhak Shargil.

World Court bids Pretoria give up S-W. Africa

THE HAGUE. — The International Court of Justice yesterday said South Africa should withdraw from South-West Africa and give up its occupation of the territory.

It also said members states of the United Nations should refrain from any dealings that would imply support or recognition of South Africa's presence in the territory. Even non-members of the U.N. should adopt the same policy, the Court said.

The Court's ruling, a 13-2 decision which was not supported by the British and French judges, was a legal opinion to back up a United Nations decision that the Republic's mandate, granted by the League of Nations 50 years ago, should be revoked and that the territory should now be administered by a U.N. commission.

South Africa has disputed the right of the U.N. to make such a decision and has continued to run the territory, an area larger than France.

The British judge, Sir Gerald Fitzmaurice, dissented because he considered that the original mandate had not been validly revoked and was still in existence until changed by lawful means.

The French judge, Andre Gros, in another dissenting opinion, thought that the original mandate to negotiate on the conversion of the mandate into a U.N. trusteeship.

The official stance of South Africa for not wanting to leave has been that it is still carrying out a 1920 League of Nations mandate promoting the well-being and development of the people of the territory.

However, it was also admitted in South African circles that considerations of economy and military strategy were involved.

The territory is a major producer of diamonds and copper, and silver, lead, zinc and uranium are also mined. Several foreign firms have concessions to prospect for oil there. The circles also felt South-West Africa was an important factor for the external security of South Africa.

This is, alas, what we had expected, said David de Villiers, who heads the legal team that presented South Africa's arguments to the Court. He said his first impression was that the majority opinion "is certainly not based on legal principles or a traditional approach in its main findings."

In 1966 a request that South Africa be ordered to leave Namibia was rejected by the Court on grounds that the applicants — Ethiopia and Liberia — could not be considered having any legal right or interest to act in this matter. (UPI, Reuters)

Zambian President Kenneth Kaunda (left), current chairman of the Organization of African Unity, is greeted by Emperor Haile Selassie of Ethiopia on arrival in Addis Ababa yesterday. (Story — Page 1). (AP radiophoto)

Full appellate court today hears U.S. case v. 'Times'

NEW YORK (UPI). — The U.S. Court of Appeals yesterday put off until today a hearing on the Government's effort to prevent publication by the "New York Times" of a secret Pentagon report on the Vietnam war.

A full eight-judge panel of the Appellate Court will today hear arguments in the case, in which a lower court ruled the "Times" had the right to publish the material.

The Court of Appeals, meanwhile, continued a restraining order which had been scheduled to expire at noon yesterday. The order barred publication of further information from the secret study tracing the origins of U.S. involvement in Vietnam.

The Government contends publication would endanger the national security, while the "Times" argues it has the right to publish the information under First Amendment guarantees of free speech and press. Both sides were prepared to take the case to the Supreme Court after the Court of Appeals issues its ruling.

Lawyers for both sides prepared secret briefs dealing with in-camera testimony on matters of national security heard last week in District Court in addition to normal legal briefs which are made public.

In other developments: Daniel Ellsberg, the former Pentagon official said to have leaked the report to the "Times" and "Post," told "Newsweek" magazine he had tried unsuccessfully to persuade Henry Kissinger, President Nixon's national security affairs adviser, to read it last September because he believed the Nixon Administration was continuing Johnson Administration policy. He said Sen. George McGovern, a Democrat, later refused to accept a copy but that he succeeded in giving Representative Paul McCloskey, a California Republican and another leading dove, "a number of Xerox sheets which bore no classification markings."

"DELIBERATE DECEIT"
On Sunday, Sen. McGovern said the documents show President Johnson "and the high officials of his Administration deliberately deceived the Congress of the U.S. and American people" on Vietnam.

His indictment was echoed in part by Senator Stuart Symington, a Missouri Democrat. Sen. Symington declined to say whether he feels Mr. Johnson deliberately deceived the public but he did say, "I don't think the American people knew what the facts were as the nation was moving deeper into the war."

• Sources close to former President Lyndon Johnson say he believes Senator Robert Kennedy influenced the then Secretary of Defense, Robert McNamara, to order the study in 1967 because the Senator was looking for an issue to use against Mr. Johnson in the 1968 presidential campaign. "Newsweek" also reported.

In an editorial yesterday, the "New York Times" said, "The material was not published by the 'Times' for purposes of recrimination or to establish scapegoats or to heap blame on any individual in civilian or military ranks." It said the material was published "because the American public has a right to have it and because, when it came into the hands of the 'Times,' it was its function as a free and uncontrolled medium of information to make it public."

This same thing holds true for the "Washington Post" when it too obtained some of the papers. The editorial said, "would have been to default on a newspaper's basic obligation to the American people under the First Amendment, which is precisely the point that Federal District Judge Murray Gurfein suggested in his memorable decision in this newspaper's favour last Saturday." (UPI, AP) (President Johnson's comment — Page 3)

Soviets said restricting new jet to Egypt

WASHINGTON (AP). — U.S. Defense officials say the Russians are keeping their newest and best jet fighter out of Israeli-controlled airspace.

This suggests to them that the 3,000 k.p.h. Foxbat may represent less of an offensive threat to Israel than was feared when the plane first arrived in Egypt several months ago.

U.S. defense officials believe that only a few of the Foxbats have been sent to Egypt and that the jets probably will be flown by Soviet pilots at least for a while.

Without indicating how they know, the officials said that so far the Russians have limited the Foxbat chiefly to air defense missions west of the Suez Canal and have not sent it over the Israeli-occupied Sinai Peninsula.

Some U.S. officials had been concerned the plane's introduction into Egypt might mean the Soviets were beefing up air support for a possible Arab thrust over the Canal into the Sinai.

SOFT-PEDAL ON ARMS

Perhaps because the Administration is pushing hard for a diplomatic solution in the Middle East, U.S. officials have tended in recent months to de-emphasize Russian arms shipments to Egypt. U.S. defense officials say analyses of available information on the Foxbat's capability indicates the plane does not possess striking improvements in firepower over types of Russian warplanes previously sent to the Middle East.

They acknowledge that the Foxbat can fly higher and faster than present U.S. tactical fighters. But they say they believe the F4 Phantom, which the U.S. has supplied to Israel, would perform fairly well against the Foxbat in the lower altitudes at which most air battles have been fought in the Middle East.

Jakarta crackdown holds 3 newsmen

JAKARTA (AP). — Three Indonesian journalists in North Sumatra have been arrested by the army on charges of carrying articles attacking the Government-backed Sekeloa Golkar group in their weekly paper, the independent "Daily Nusantara" reported yesterday.

The three men are the general manager, chief editor and a reporter of the weekly "Berjuang." They have not been released, the daily said. Berjuang in its articles said the members of Golkar were "Maoists who do not follow Moslem rules, and fanatic Moslems."

In Jakarta, the army has banned the weekly "Sri Kandi" on grounds that its printing permit had expired. The weekly is known for its anti-Government and pro-Sukarno stand.

FRENCH MID-EAST ENVOYS CONFER

BEIRUT (UPI). — French ambassadors from 15 Middle East countries started a three-day conference in Beirut yesterday under Minister of State for Foreign Affairs, Jean de Lipkowsky. French Embassy sources said.

They said the ambassadors will discuss "general and administrative matters."

Russian space experts in U.S. for talks

HOUSTON (UPI). — A group of Soviet space experts, including Cosmonaut Vitaly Sevast'yanov, arrived here from Moscow Sunday night for a week's talks on Russian-American space cooperation.

The talks, set up under a bilateral agreement between the two countries' space agencies last October, opened yesterday at Houston's manned spacecraft centre, home of mission control for the Apollo moon flights.

Among their main aims is the design of a common docking mechanism which would allow Soviet and American spacecraft to link up for joint missions or for rescue operations.

The three Soviet cosmonauts now orbiting the earth aboard Salyut are believed to have used a new docking mechanism similar to the Apollo design to link their Soyuz spacecraft with Salyut. Previous Soviet docking systems were believed to have involved external transfer of Cosmonauts, but the present one uses a tunnel like that between the Apollo common ship and lunar landing craft.

Although the principle is thought to be the same, officials of the U.S. space agency, NASA, say Soviet-American link-ups in space will probably not be feasible for some years — certainly not until the Apollo programme ends next year.

Leading the 20-man Soviet negotiating group is Dr. Igor Runyants, of the Council on International Cooperation in Space Research. The U.S. team is led by Dr. Robert Gilruth, director of the manned spacecraft centre.

Police kill youth in racial flareup

COLUMBUS, Ga. (UPI). — A black youth was shot to death by a policeman early yesterday during a flare-up of freeloading in this racially-troubled city on the Alabama border.

Police Capt. Bobby Knox said the youth, Willie Osborn Jr., of Columbus, was killed after he fled from a car being chased by police and ignored orders to stop. He said Osborn tried to run over two policemen at a roadblock and then jumped from the car with an "object in his hand."

It was the second night and morning of violence stemming from black protests over the firing of seven Negro policemen, who had ripped American flag shoulder patches off their uniforms to emphasize their accusations of racial discrimination in the police force.

MODERATE QUAKE SHAKES L'ANGELES

LOS ANGELES (AP). — A moderate earthquake shook parts of the Los Angeles area at 16:01 GMT yesterday (8:01 p.m. in Israel). It was described as an aftershock of the February 9 tremor that claimed 64 lives.

There were no reports of major damage, although one man told police his refrigerator was knocked over. Telephone service was disrupted in one area of the San Fernando valley. Seismologists said the quake registered 3.9 on the Richter scale and was centred in the San Fernando valley. It was the largest aftershock of the big quake since April 25.

Soviets vow aid to Arabs against Israel 'aggression'

DAMASCUS (UPI). — The Soviet Union stressed yesterday its determination to aid the Arab states against Israel. Damascus Radio said.

It quoted a joint communiqué on the recent visit here of a Soviet delegation as saying the Soviets "expressed their determination to extend aid to Syria and other Arab countries in their struggle against imperialist Israel aggression and to seek the withdrawal of the Israeli aggressors and restoration of Arab and Palestinian rights."

The communiqué came at the end of the eight-day visit of a six-member Soviet parliamentary delegation led by President Vice-Chairman Nazim Makhomov.

The Russians flew home Sunday after talks with Syrian Government leaders and parliamentary members. The communiqué said the talks took place "in an atmosphere of friendship and sincerity" and aimed at improving relations between the two countries.

The visit was "an important step in strengthening friendship and revealed the increasing cooperation between the Soviet Union and Syria in the struggle against the imperialist powers."

Migs, Mirages in friendly encounter

MOSCOW (UPI). — Six French Mirage aircraft arrived here yesterday on their first such friendship visit to the Soviet Union, French sources said. They were welcomed ceremonially over Domodedovo airport by six Soviet Mig-21s.

The Mirage flight was led by Gen. Gabriel Gautier, chief of staff of the French Air Force. The visitors will be guests of the Soviet Air Force until Friday.

The Soviet Air Force is expected to make a return visit to France. The Mirages arrived on the eve of the 30th anniversary of the German invasion of the Soviet Union. During the war, Free French fighters organized the Normandy squadron, which fought under general Soviet command in some of the most critical battles on the Smolensk and East Prussian fronts.

Lieut. Gen. Vasili Stalin of the Soviet Air Force, the Generalissimo's son, was in close combat association with the French.

DAYAN

(Continued from Page One)
thought, there still was a chance for a settlement "so long as shooting has not resumed."

Answering questions about arrangements at the Jordan River bridges, Mr. Dayan said that travellers have to go through four separate processes, including a body search, before the formalities of crossing are completed. He said that the searches aimed not so much at uncovering concealed weapons as preventing smuggling of sabotage material, mainly explosives.

Asked to sum up the four years of the "Dayan open bridges policy," the Defence Minister said, "Here you see it for yourself."

In reply to another question, about reported plans by West Bank leaders to explore the possibility of repatriating West Bank Arabs who fled the area during the 1967 war, Mr. Dayan said he doubted whether there were West Bank Arabs who are authorized to negotiate the refugee issue, which concerns Jordan. He added that during his contacts over the past four years with the West Bank leaders, he found none prepared to negotiate on behalf of Jordan or any other Arab country.

At this stage, the editor of the Bethlehem weekly "Al-Bashir," Jamil Hamad, protested that the Israeli authorities were ignoring the West Bank Palestinians. Mr. Hamad told Mr. Dayan that there were local leaders who were prepared to be spokesmen for Arab states, Mr. Dayan replied, "If you tell me their names, I will talk to them."

When Mr. Hamad demurred, the Defence Minister asked, "How do you expect us to hold negotiations with people who cannot be identified in public?"

The flow of visitors was slow during Mr. Dayan's visit. It included two women teachers from Kuwait for a two-month holiday with relatives in Hebron.

On his way back from Allenby Bridge, Mr. Dayan visited Nablus and met with Mayor Haj Ma'asuz al-Masri and local notables. Accompanied by high-ranking Army officers, Mr. Dayan dropped in at the town's wholesale marketplace to discuss marketing problems with Nabulsi farmers and merchants.

Jesuit magazine hits Jerusalem housing plans

VATICAN CITY (AP). — A Roman Catholic magazine yesterday deplored Israel's urbanization plan for Jerusalem, saying it would "suffocate the rights of other religions and set back the cause of peace."

The sharply-worded article in the authoritative Jesuit publication "La Civiltà Cattolica" represented another Catholic offensive against Israeli housing plans for Jerusalem.

The Vatican daily, "L'Osservatore Romano," raised a storm of controversy last March by accusing Israeli officials of suppressing Christians and Arabs in East Jerusalem with the development plans.

"La Civiltà Cattolica," which often reflects opinions of officials in the Vatican, praised Israel for showing sincere and costly generosity for the sacred buildings in Jerusalem since the Six Day War. But it said the urban plan for "Greater Jerusalem" confirms the old Zionist tendency to transform the Capital of the State into a Hebrew centre which would suffocate the rights of other religions.

Crowds greet Faisal in Alexandria

JERUSALEM POST Arab Affairs Reporter
King Faisal of Saudi Arabia and Egyptian President Anwar Sadat yesterday held their second day of wide-ranging talks in Alexandria where the two leaders arrived for a three-day visit.

The Saudi monarch, who is on a week-long official visit, was given a tremendous welcome at Egypt's second largest Mediterranean coastal city. Cairo radio said huge crowds waved portraits of King Faisal and "great" guests.

Meanwhile, Cairo's newspaper "Al-Ahram," yesterday quoted King Faisal as saying he was backing the Egyptian position on "Israeli aggression."

Saudi Arabia is one of three Arab states compensating Egypt for its losses resulting from the closure of the Suez Canal in accordance with a resolution of the Arab summit conference held in Khartoum in August 1967. The other two states are Kuwait and Libya.

Other Cairo press reports said yesterday King Faisal had lifted all restrictions on Saudis wishing to visit Egypt. These reports added that thousands of Saudis were expected to spend the summer holidays in Alexandria and other summer resorts.

Kuwait to tell Agnew Israel must pull back

KUWAIT (Reuters). — Kuwait will advise U.S. Vice-President Spiro Agnew the need for American pressure on Israel to withdraw from occupied territories, Minister of State Abdul-Aziz Hussein said yesterday.

Mr. Agnew will arrive here July 6 for a two-day visit before going to Saudi Arabia. In a front-page editorial, the paper, "Daily News," praised Mr. Agnew for his "sense of integrity and equity" and expressed hope he would listen attentively to the Emir of Kuwait's remarks about the situation in the Middle East.

Negev University to excavate Arad

BEERSHEVA. — Excavations are to begin at the end of July at the ruined city of Arad. A team of Negev University students under the direction of Dr. Ruth Amirani will be attempting to uncover the remains of the extensive Canaanite settlement in Arad in the Early Bronze Age.

A previous archaeological expedition which operated in the region between 1962 and 1967 unearthed a chain of Israelite, Greek and Roman fortresses in the vicinity of Arad.

Dr. Amirani's team will be working for about a month.

Cables in brief

JORDAN. — Jordanian Crown Prince Hassan yesterday arrived in Frankfurt for a one-week visit to West Germany which will include talks with Bonn Government leaders, including the question of further West German capital aid.

AIRLINER. — Sixteen passengers and crew were slightly injured when a Pan-American Boeing 707, flying at 10,300 metres, suddenly plunged more than 33 metres after striking an area of turbulent air on a flight from Kuwait to Sydney, yesterday.

Malta gets first Socialist regime

VALLETTA. — Malta (Reuters). Prime Minister Don Minihah, returned to power in general elections last week, yesterday announced Malta's first Socialist Cabinet since the strategic island became independent from Britain in 1964.

The 55-year-old leader was sworn in as Premier last Thursday after his Labour Party gained a one-seat victory over the Nationalist (Conservative) party of Dr. George Borg Olivier.

According to an official announcement, talks were due to start yesterday on reorganising the Malta Dockyard — the island's biggest industry. The Labour Party's election manifesto said it would set up a new dockyard corporation, half of whose members would be nominated by the Government and the other half by the General Workers Union.

England-Pakistan test heading for draw

LONDON (AP). — England's cricket team declared at 241 runs for two wickets and Pakistan scored 49 runs without loss yesterday as their rain-ruined second test match headed for an almost inevitable draw.

More than 17 hours of play have been lost in rain that waterlogged the outfield at Lords Ground in London. Not a ball was bowled on Saturday and play was delayed yesterday until mid-afternoon.

Ired French tour organizers await reply on cancellations

By JACK MAURICE
Jerusalem Post Correspondent

PARIS. — Indignation mounted among Jewish youth and travel organizations here yesterday as they waited impatiently to hear why Israeli kibbutzim have suddenly cancelled holidays for over 1,000 young visitors from France.

Amnon Kaplan, president of the Union of Israel Students in France, left for Israel in order to obtain a first-hand explanation from the kibbutz organizers of their decision.

Before he sailed from Marseilles, Kaplan said he received no answer to a cable urging the kibbutzim to reverse their ruling. The student leader wired copies of his appeal to Foreign Minister Abba Eban, Education Minister Yigal Alon, Tourism Minister Moshe Kol, Head of Secretariat-General Yitzhak Ben-Aharon and Mapam Secretary-General Meir Yaari.

Kaplan's cable recalled that the French Union of Jewish Students had booked 400 youngsters with the 'Histour' Travel Agency. But last week a telephone call from Tel Aviv brought the news that the students could not be received in Israel.

He added: "It's a crime to let these boys and girls down like this at the last minute. It seems to be outright discrimination. Too far as I can understand, the cancellations do not affect visitors whose trip includes a week of sightseeing in Israel."

Arye Anshel, Deputy Chief of the Jewish Agency's Youth Department, here said: "The Agency sends 7,000 youngsters to Israel from all over the world every summer. The cancellations do not affect our people. We've had no cancellations. But I know the kibbutzim are overwhelmed with foreign visitors. Summer is not the ideal period for them to accommodate guests."

So far, none of the travel and student organizations here have informed youngsters on their registers that their trip to Israel is off.

A travel organizer told me, "We just have not the heart to let them know: 'their holidays have been ruined. We still hope that the authorities in Israel will realize how much damage this unfortunate affair can provoke unless alternative arrangements are rapidly made to accommodate these youngsters.'"

TRUMAN. — Bess Truman, wife of former U.S. President Harry Truman, entered Research Medical Centre in Kansas City yesterday for what a spokesman described as a "routine physical check-up."

Ambassador and Mrs. Moshe Bartur Mr. and Mrs. Teshin Noda are happy to announce the wedding of their daughter Dorit and their son Abraham Tetsuya on June 23, 1971.

Wedding and reception at the Ambassador's residence.

On the thirtieth day after the death of
MAGDA HERBST
the unveiling of the tombstone will be held today, June 22, 1971. Assembly at the main gate of the Holon cemetery, at 3.00 p.m.

at about the same time that he talked to 20 Harvard professors at the Kennedy Centre in Cambridge, Massachusetts, "Newsweek" said.

"Time" said that McNamara hopes that the entire secret Pentagon report, parts of which have been revealed in the "New York Times" and the "Washington Post," will be declassified and made available.

McNamara, now head of the World Bank, was reported to feel, however, that "the sensational way in which the documents were released is tragic."

"Newsweek" said that Daniel Ellsberg, the former Pentagon aide, told interviewers he was flattered to be suspected of having leaked the documents.

The magazine said it interviewed Ellsberg last week in his apartment in Cambridge before he dropped out of sight.

Ellsberg was identified last Wednesday night as the supplier of the documents by a former "Times" reporter, Sidney Zion.

Ellsberg has not been seen since, although he telephoned the Massachusetts Institute of Technology, where he is a research associate, on Friday to say that he was well.

"I am flattered to be suspected," he said in the interview. "I'm glad it's out," he said. "The documents show that presidential assistants and other officials had virtually unlimited license to lie, but now, those responsible for the escalation of the war will be held to account for the papers they signed."

Ellsberg was quoted as saying that he had tried to get Henry Kissinger, President Nixon's aide, to read the documents.

DS ON U.S.-CHINA ES BY NEXT YEAR

WASHINGTON. — The extremely threatening Soviet military build-up on the Chinese frontier with China in the three years, 1968, 1969 and 1970, the Soviet forces on the frontier actually tripled; and the build-up still continues.

The whole pattern of Soviet preparations, furthermore, is tailored to a preventive attack, aimed to take out China's growing nuclear power — and to take it out with nuclear weapons. That does not mean that such a preventive attack is certain.

But the Chinese obviously feel, and quite rightly, that it is plain silly to say that people will never, never do what they are clearly preparing to do. So the Chinese are deeply worried.

Whether these Chinese worries are justified or not will be known at some time in the next one-and-a-half to three years. Then will come the now-or-never moment, when the growth of Chinese nuclear power will begin to change the odds and risks. At that moment, the Soviets will be forced to de-

relaxation of on trade with its had strong Department.

rtant change ipping rules, the United States — profits from the, had even position, plus Congress. These ight to reveal the goal.

Support for terrorists dwindles in Jordan

NEW YORK (INA). — Support for the terrorists has dwindled among the Palestinians since the civil war, but just how much support has shrunk is a matter of controversy, says a report from Amman in the "New York Times."

Outside Jordan, some Arab intellectuals still ardently support the terrorists. But in Amman, says the newspaper, it is clear that militant supporters of the movement have become more subdued and that other Palestinians are taking a middle-of-the-road attitude or have come to side with Hussein.

Some, of course, have always sided with him and some are now actively helping the police against the terrorists.

"These are Palestinians who are bought by the government with money," according to one terrorist spokesman.

None the less, spokesmen for Fatah say that they will soon start "potent" political opposition to King Hussein's regime.

Signs that the terrorists might form their own government-in-exile have spurred King Hussein to order his Premier, Wasfi al-Tal, to act "decisively and without hesitation" against "plotters" seeking "Palestinian power."

With the help of Palestinian informers, the government is keeping a tight rein on the terrorists. In Amman, troops make house-to-house searches for hidden arms. In the countryside, the army still surrounds the terrorists' camps, and there are occasional clashes between troops and the depleted terrorist forces.

The terrorists' spokesmen have become more assertive recently. A month ago, a spokesman addressed a visitor in whispers in the back room of an Amman coffee house. But this week, a central commit-

tee member received a caller openly at one of the Palestine Liberation Organization villas.

The spokesman, who called himself Abu Saleh, said: "Until now we haven't really begun the political struggle with the government — and when we do, it will not be our aim to overthrow the king. It is our right, and we have earned it with our blood."

Terrorist leaders are expected to try to intensify opposition to King Hussein at a meeting of the Palestine National Council, the self-proclaimed Palestinian Parliament, to be held later this month.

Abu Saleh complained that the Jordanian Army was harassing terrorists on missions behind Israeli lines, but he asserted that these missions were none the less going on "every night."

Reports are lies

In the last few days, terrorists claimed several substantial operations against Israeli targets. This has prompted some Palestinian journalists to speak of a "summer offensive," although palace officials in Amman say the reports are lies.

Violence continues within the terrorist movement as well. Several terrorists were wounded and one was killed in Beirut last week when shooting erupted between the Palestine Liberation Organization's militia and members of the Popular Front for the Liberation of Palestine.

A more serious symptom of the long-standing strife within the movement came last week when the Commander of the Palestine Liberation Army, Brig. Abdul Razzak Yehya, withdrew from a meeting of Palestinian leaders in Damascus.

Sculpture unveiling in Capital park

By MEIR RONNEN
Jerusalem Post Art Editor

A SEVEN-metre high abstract sculpture designed by the late Jean Arp, one of the most famous of all pure abstract sculptors, will be unveiled at the entrance to Jerusalem's Independence Park at 6.15 p.m. today.

Called "The Threshold of Jerusalem" (no doubt posthumously, as it is the enlargement of a maquette of one of his "Threshold" series made many years ago), the work has been donated by Dr. and Mrs. Arthur Lejwa of New York. It stands on a newly constructed plaza at the King George Ave. side of the park, and consists of three rectangular wavy aluminum columns placed in relation to each other in a way that makes a shape of the space between each "figure." The polished aluminum offers a pleasant contrast to the background of trees and the relationships are intriguing enough to make one want to look at the work again and again.

Jean (or Hans, as he was sometimes known) Arp was born in Strasbourg in 1887 and was one of the pioneers of modern painting and sculpture. He came to Paris in 1904, where he saw his first modern works and studied in the Salons of Paris and Wehring (Switzerland, where he worked with Klee). He later joined Kandinsky and exhibited with the famous "Blue Rider" group in 1912. His first abstract paper collé works appeared in 1915 and the following year, together with Marcel Janco, he founded the Dada movement. He worked with Max Ernst in 1920 and in 1926 settled in Meudon as a member of the Surrealist group.

In 1930, at the height of the Bauhaus period, Arp joined the "Circle and Square" group; and in 1932-34, joined yet another group, the "Abstraction - Creationists." During World War II, he went to Grasse where he worked with Sonia Delaunay and Magnelli. Arp finally settled in Basel.

Possibly no other major artist has ever worked so fruitfully and so willingly with so many other major figures of his time. Yet Arp always went his own way and his work, usually characterized by a recognizably Arpian elementary shape is peculiarly his own.

Dr. and Mrs. Arthur Lejwa of New York have also donated two other sculptures to the city of Jerusalem — all installed in Independence Park: "The Loop" by American Robert Engman; and "Skedion" by Stephanie Scuris, a Greek-born sculptress now a citizen of the U.S. Miss Scuris' sculpture is a two-and-a-half-metre high composition of stainless steel tubes.

Dr. Lejwa, the bio-chemist who discovered the male hormone, and his wife Madeleine are well-known in international art circles and have their own gallery in New York.

Father of hippie poet to read own works here

A current visitor in Israel is Louis Ginsberg, father of hippie poet Allen Ginsberg but a poet in his own right.

Ginsberg, born in Newark, New Jersey in 1895, writes what a critic has called "traditional, lyric poetry." Author of two collections, most recently "Morning in Spring and Other Poems" (New York, Morrow, 1970), he has published in such journals as "The New Yorker," "The Saturday Review," "Atlantic Monthly" and "The Nation," and is represented in 80 anthologies. He is on the faculty of the Rutgers University College in Paterson, New Jersey.

On Thursday at 6 p.m., he will give a lecture and reading at the literature seminar of Dr. Shulamit Nardi in room 101 of the Hebrew University's Mazer Building.

Here are two poem by Louis Ginsberg:

WATERFALLS OF STONE
Buildings are waterfalls of stone
That, starting up with marble
crest,
Are frozen and enchain'd in air,
Poised in perpetual rest.
But water seeks its level out.
So, when these fountains are
unbound,
The catenae of melting stone
Will sink into the ground.

CLOCKS
On what a brave and curious
whim
Man gathers clocks to see
And listen to their taunting him
On his mortality.
How sharp a jest it is that man
His own impermanence mocks
To memorize how short his span
Upon a thousand clocks!

From "Poetry: Its Appreciation and Enjoyment," edited by Louis Ginsberg and Carter Davidson (New York, Harcourt Brace & Co., 1964).

When floors sink in

The Supreme Court allowed an appeal against a judgment of the Tel Aviv District Court delivered on November 9, 1969 (in C.A. 15/69). The respondents sued the appellants in 1965 for £13,000 damages for the loss caused to them by the fact that the apartment which they had bought in 1954 was defective, as the floors had sunk and the walls were cracked.

The magistrate's court dismissed the claim holding that it had been brought too late and that, in any case, there had been no negligence on the part of the appellants with respect to the construction of the apartment.

The Tel Aviv District Court allowed the appeal on the grounds that the magistrate's court had completely ignored the contractual cause of action based on, in the words of the District Court, "the well-known principle that in the absence of any express condition, an implied condition to the effect that an apartment must be fit for habitation should be read into every contract for acquiring an apartment"; and that as the period of prescription for actions based on contracts is 15 years, the respondents had not missed their opportunity to bring an action.

The President of the Supreme Court gave Shimon Ovidim leave to appeal against this decision on one question of law only: that, as they had submitted, the principle laid down in C.A. 451/66 (1 P.D. 21/310) is that there is an implied condition in every contract for acquiring an apartment that the building contractors shall not be negligent in constructing the apartment.

Judgment

Justice Cohn, who delivered the main judgment of the Supreme Court, Justice Many concurring, held that the rule established in C.A. 451/66 is not, as argued by the appellants, that the implied condition to be read into a contract for acquiring an apartment is that the builder shall not build negligently; but that a builder who has been negligent is liable in tort for damages also towards persons with whom he has no contractual relations — and this rule is quite irrelevant to an action based on contract.

Nor, continued Justice Cohn, are the appellants correct in their later contention that the rule established in C.A. 451/66 is that the duty to take care and the duty of expertise imposed on the builder of an apartment under the doctrine of tort is identical with the duty imposed on the builder by virtue of the implied condition in a contract connected with acquisition of the apartment. For, he held, there was no such ruling in C.A. 451/66, if only for the reason that no hard and fast criteria can be laid down for an implied condition in a contract.

As to the precedents in English and American law, produced by opposing counsel, with respect to the

Apartment must be inhabitable or else contractor
guilty of breach of contract

LAW
REPORT

Edited by Doris Lankin

TUESDAY, JUNE 22, 1971

implied condition in a building contract that a dwelling must be reasonably suited for its purpose, and their arguments as to the applicability of this law in Israel, he saw no cause, held Justice Cohn, for dwelling at any length on the question or of expressing any opinion on it as in the meanwhile the Israel legislature had solved the problem by statute; section 11 of the Sale Law, 1968, which provides that a seller "has not fulfilled his obligation if he has delivered property lacking the quality or characteristic necessary for its ordinary or commercial use or for the particular purpose appearing from the agreement." Thus, since the enactment of the Sale Law, a person who sells an apartment for dwelling purposes must, whether he is obliged to do so or not by the contract of sale, provide an apartment which has all the necessary requirements of a dwelling, and if he does not, he is deemed to have broken the contract.

Implicit condition

The Sale Law does not, of course, continue Justice Cohn, apply to the present case (as it had not been enacted when the action was brought). So that, *prima facie*, it could be thought that the question of whether the building contract contained an implicit condition concerning the suitability of the apartment for dwelling purposes did arise. However, a study of the contract between the appellants and the respondents reveals that there is, in fact, an express clause to the effect that the respondents were purchasing the apartment for dwelling purposes. He thought, therefore, he held, that it was legitimate to presume that the appellants had undertaken to deliver to the respondents an apartment which was inhabitable.

But since the District Court had ruled that the question of whether the apartment was fit to be lived in had still to be decided, this question had to be left open, in the absence of leave to appeal on this point.

However, Justice Cohn went on to hold, there was no purpose in sending the case back to the magistrate's court to determine this question if in any case the respondents had no remedy, and in his opinion they did not have any remedy. For the respondents had claimed that they had received an

apartment with a defect of long standing, which made it unfit to live in. But the law with respect to defects was defined in the Mejele until the Sale Law came into force; and according to article 33 of the Mejele when a defect of long standing is discovered in property, then the purchaser has the option of rejecting the property or accepting it for the fixed price. Furthermore, article 344 provides that "if the purchaser after becoming aware of a defect in the thing sold performs any act indicative of the exercise of a right of ownership, he loses his option for defect."

As, therefore, concluded Justice Cohn, the respondents themselves admitted that they had discovered the defect in their apartment already in 1956, and as since then they had been living in the apartment and acting not only in the way owners act but also as occupants act, their suit for damages brought ten years later, could not now avail them. For the appellants were entitled to presume that in the course of time the respondents had reconciled themselves to the defect in the apartment, particularly since sinking floors and cracked walls were not an uncommon defect in Israeli housing.

In short, held Justice Cohn, as the respondents could not get any relief from the courts whatever the nature of the defect in their apartment might be, the appeal should be allowed and the District Court judgment set aside.

Justice Eladoni

In concurring with Justice Cohn Justice Eladoni noted that there was no doubt that dwellings came within the category of property whose purpose and intended use is unambiguous, even if this purpose were not expressly stipulated in the contract of sale. So that if a person purchases an apartment and it appears later that it is uninhabitable, he has an option for defect (see also C.A. 212-70, 2 P.D. 24-598). All the more so is this case, he continued, when the contract of sale expressly lays down that the apartment is intended for dwelling purposes.

However, he concluded, as Justice Cohn had pointed out, the respondents had lost their option for defect, and for that reason the appeal should be allowed without costs. Judgment given on May 26, 1971.

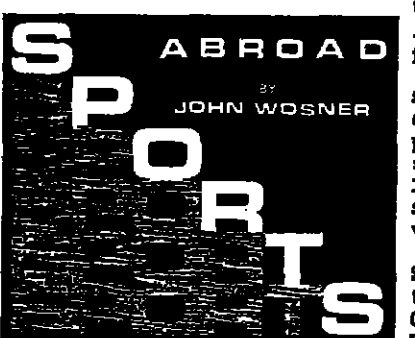

NICKLAUS, TREVINO TIE

JACK Nicklaus missed a 12-foot hole and tied with Lee Trevino, for the United States Open championship Sunday, forcing an 18 hole playoff.

Nicklaus, who is after a 12th major title, had a chance to win his third U.S. open title going to the final hole on the treacherous Merion Golf Club course.

He needed a birdie to catch Trevino, the Mexican-American who beat Nicklaus for the 1968 title. (Nicklaus, the reigning P.G.A. and British Open title-holder, finished with a 71, one over par. Trevino, had a 69. Jim Simons, the 21-year-old amateur who led Nicklaus by two strokes going into the final round, couldn't hold up in the intense pressure.

The American college student took a 76, six over par, and was three strokes back of the playoff participants at 283. Veterans Bob Rosburg, a former P.G.A. champion and Jim Colbert, who used an odd-shaped putter

named "moon pie," tied for third at 282. Rosburg closed with a 69 and Colbert had a 71. Arnold Palmer, never really in it after the second round, had a 74 for 288, eight strokes back. South African Gary Player, still accompanied by security people after being heckled over his country's apartheid policies early in the tournament, had a 70 for 289. Tony Jacklin, last year's champion, was eliminated after only two rounds when his total was 182.

ATHLETICS

VILLANOVA's great miler, Marty Liquori, and Brigham Young university's tremendous intermediate hurdler Ralph Mann, each won a third straight title Saturday in

the National Collegiate Athletic Association Track and Field championships, in Seattle Washington. Liquori's time of 3 minutes, 57.6 seconds was one of five meet records set in the final day of competition at the University of Washington stadium before a crowd of 12,850. He clipped one-tenth of a second off the mark he set in winning the 1969 title.

Other records fell to Oregon's Steve Profontaine with 13:20.1 in the three-mile; Reynaldo Brown of Cal Poly-San Luis Obispo with a 7-foot-3 high jump; and to Sid Sink of Bowling Green, Ohio, who ran the 3,000-metre steeplechase in 8 minutes, 30.9 seconds. George Young, who holds the American record just three-tenths seconds faster than Sink ran, is the only United States Citizen to have run the steeplechase faster than the Sink.

The fifth meet record came in the triple jump and strangely enough was set by an athlete who finished third in the event — Denny Rogers of U.C.L.A.'s team champions with a jump of 53 feet 7 1/2 inches.

The title went to Hohinder Gill of Cal Poly at San Luis Obispo, who repeated as champion with a wind-aided 54-3/4. The second place jump of 54-5/8 by Barry McClure, of Middle Tennessee, was also made with an aiding wind stronger than that of 7 miles an hour so could not be considered as a record.

IT'S THE SEASIDE SETTING PLUS

that makes your Home at

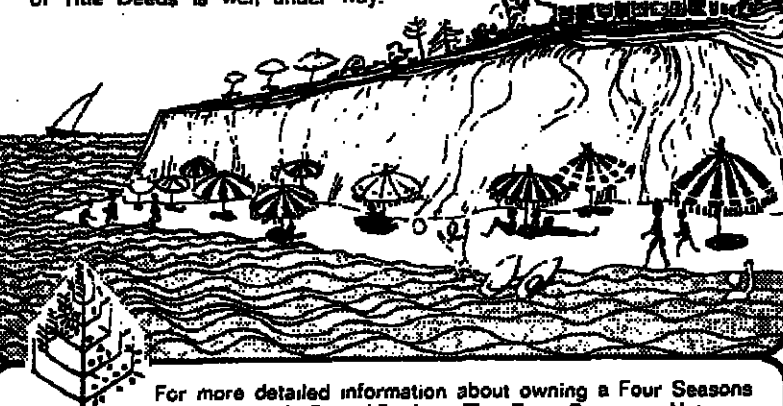

THE FOUR SEASONS so worthwhile

People the world over flock to Israel's beautiful sea resorts to enjoy their almost year-round attraction. And that's just one more reason why The Four Seasons — Israel's most luxurious condominium apartment-hotel — has become such a favorite with those yearning for that second home in Israel. Only a short trip from the centre of Tel Aviv, your home at The Four Seasons with its breathtaking view of the Mediterranean provides the perfect setting for "gracious living."

The annual return you get from sharing in the profits of the hotel operation provides the rest.

And don't forget — the people behind The Four Seasons are the same who built and developed the well-known Inn on the Park Hotels of Toronto and London... so you know you're in good hands.

Better act quickly, though, there aren't too many units remaining AND the registering of Title Deeds is well under way.

For more detailed information about owning a Four Seasons apartment call Daniel Sopher, The Four Seasons, Netanya, Tel. 053-27172 (9 a.m. — 5 p.m.); Tel Aviv, Philip Cohen, Tel. 58722 or contact Canisra Holdings Ltd., 157 Bentworth Ave., Toronto 390, Canada, Tel. (416) 788-1515.

LS KNESSET: ism influx up one-third

Reporters to Israel has been a steady increase in the number of tourists, so as to add 100,000 new tourists by the end of 1973. This would entail special marketing research, wide-ranging publicity, and TV advertising campaigns in the U.S. A budget was available for this, and the idea was to portray Israel as a place you could have your holidays.

Five thousand new hotel rooms, to cater for 10,000 tourists daily, were at present under construction, the Minister said, at an overall investment of IL280m. — much of this in foreign currency. Regrettably, most of the 5,000 rooms were in four- and five-star hotels only. And although another 7,200 rooms were in advanced planning stages, a host of difficulties was resulting in the fact that not a single one of them would be available by 1973 when the State would be celebrating its 25th anniversary.

To overcome these obstacles, many of them due to bureaucracy

pure and simple, he had appointed a trouble-shooter to boost the pace of construction. He would also arrange grants and loans to youth hostels, kibbutzim and camp sites, to get thousands more beds ready in time for the semi-jubilee.

After the building lag, the main problem was to improve the standard of tourist services, and if fundamental steps are not taken, grave harm would be done, he warned. Improvement is essential at every phase, from the second the tourist got off the plane.

The Ministry was becoming stricter against hotels with defective services, such as fines (up to IL5,000), and procedures for deposition of formal complaints, would depend on the new Tourism Services Law, to be tabled in the Cabinet shortly. Today the Tourism Ministry lacked authority to handle defective services on the beaches, in hotels and restaurants, and in transport.

Judge raps Tourism Ministry; restores Diplomat Hotel's 5th star pending appeal

By DAVID LENNON
Jerusalem Post Economic Reporter

The Diplomat Hotel in Jerusalem will retain its 5-star grading until its appeal against the Tourism Ministry decision to take away one star is heard by an appeals committee on July 6. This decision was given yesterday by the chairman of the appeals committee, Judge Yehuda Cohen.

At the same time, the Judge ruled that his decision would only have force if the Diplomat Hotel management complies with a number of conditions. Among these are that, within five days, it notify all the travel agents connected with them and all Israel Government Tourist Offices abroad that the hotel is still under construction. The management must further inform travel agents that they are entitled to cancel bookings already made without having to pay a cancellation fee.

times in his report. He reports that, on his visit to the hotel on June 11, he was impressed with what he saw. "The general appearance is attractive and impressive, and, in my limited experience, does not fall below the standard in other 5-star hotels which I have seen," Judge Cohen writes.

Tourism Minister Moshe Koi told me yesterday that this decision shows the Ministry that it will have to take steps to seek a tougher law, with more teeth, if it is to be able to control such matters in the future. The Minister was obviously somewhat put out by the Judge's decision, particularly as it now seems unlikely that the appeal committee will back the earlier Ministry decision to lower the Diplomat's grade.

COMPLAINTS FOR TWO YEARS

Judge Cohen pointed out that the Ministry has been receiving complaints from tourists about the hotel for the past two years, yet it only now decided to lower the hotel's grade when the construction work is almost completed. It would have been reasonable earlier for the Ministry to have closed the hotel until construction work was concluded. However it failed to take such action.

It would appear to have been a serious mistake on the part of the management and of the tourism authorities to have permitted the hotel to be opened while it was still in the middle of construction.

It is a twist of fate that now, just when the hotel is nearing completion, a move should be made to lower its grade, the Judge con-

BECAUSE OF POST REPORT

Mr. Haim Schiff, owner of the Diplomat Hotel, told me that the Ministry had in fact asked him to open the hotel while under construction. There were a shortage of hotel rooms for tourists. "They only decided to take this action because of your report in The Jerusalem Post, and I must tell you that it cost me hundreds of thousands of dollars in business lost," he also reported that the hotel will be completed by the end of the summer.

"Golds, teach us Russian so that we can afford to live on terms we can afford," reads this banner on a new block in Derech Hamitzachon, Tel Aviv, which was occupied yesterday by 15 young families from the Hativva Quarter. The young people moved in bag and baggage, apparently under the impression that the new flats were reserved for immigrants, and intending to protest their own poor housing conditions. In fact, as Municipal Councillor Eliezer Speiser made clear to the squatters, the flats are intended for rehousing families from their own area. Mr. Speiser said he hoped the Municipality and the squatters would come to an amicable arrangement, and no "drastic means" would be required to shift them. But by yesterday evening, they were still there. (Report by Yita, Photo by Hertz)

M.K.s want higher birth grant

Jerusalem Post Economic Reporter

The Knesset Labour Committee yesterday approved a Ministry Labour proposal that the National Insurance Institute boost its monthly payment from IL12.50 per child per month to IL17.50 for families with over three children. The increase will be retroactive as to January 1, 1971.

For workers who receive daily wages, the rate per child will be 70 agora per day.

The Committee also discussed a Ministry proposal that the cash payment made to women who have given birth be raised by IL20, to IL120. The Committee felt that the increase should be larger, and decided to postpone a decision until a later meeting.

Three jailed for bank robbery; cash never found

TEL AVIV. — Three young men who staged a dramatic hold-up at a Hadar Yosef Bank last February were sentenced yesterday to jail terms of seven to 10 years. The maximum sentence for armed robbery is 14 years.

A fourth man suspected of complicity in the hold-up could not stand trial: the submachinegun wielded by one of the others during the robbery went off accidentally, and he was shot in the head. He suffered serious brain injuries and is still in hospital.

The three accused, who admitted the facts and the charges, were Yitzhak Paek, 24 (10 years), Yehoshua Asher, 21 (nine years) and Moshe Sopir (seven years). Paek, who did not possess a driver's licence, but helped steal the getaway car, was barred from ever obtaining a licence. The other two had their licences suspended for five years, beginning the day they are released from jail.

The three men — reportedly together with the fourth, unconvicted accomplice — stole a Hillman sedan from a Ramat Chen street on the

night of January 31, when they planned the robbery.

On February 3, with Sopir driving, they went to the Hadar Yosef branch of Bank Hapoalim. While the car and driver waited at the curb, two of the robbers — wearing masks and carrying Uzis — charged into the bank and ordered everyone inside to raise their hands above their heads and remain silent. The third, threatening the cashier with a dagger, emptied the cash drawers, which contained IL15,000 and \$440 in cash.

After gulling out the telephone wire, the three ran out to the car. As they were piling in, however, one of the Uzis went off and several rounds blasted into the fourth man's skull.

The three accused took their wounded friend with them and fled, later dropping him, unconscious, in the parking lot of Beilinson Hospital. They abandoned the Hillman but later stole another car, drove back to the Hillman, and set it afire.

The money they stole has never been recovered. (Hitz)

No. 100,001 has to walk

The cable car at Masada — which has carried 100,000 passengers since it began operating about four months ago — will be closed for the next few days. After the Kakevel was stopped for repair of a minor breakdown, the firm that maintains it decided to take advantage of the stoppage for a general seasonal tune-up.

IL 10,000 fine for foreign bodies

The largest fine ever imposed on a single manufacturer in a "foreign bodies" case — IL10,000 — was levied on the Tempo soft drink company yesterday. The company had been convicted on 16 different charges in which customers discovered alien materials, including once-living creatures, in bottles of Tempo's products.

The ill-fated beverage firm was fined IL7,760 last December and another IL2,240 in February because of foreign bodies.

In Dimona yesterday, the Tene-Noga company of Kfar Shmaryahu was fined IL1,500. A customer had found grape stalks in a container of its milk.

The Tnuva Dairy in Haifa was fined IL400 in the Magistrate's Court there for one bottle of milk containing an onion peel and another with dirt inside and a cup of yogurt containing a piece of plastic. This is the 24th time Tnuva in Haifa has been in Court on cleanliness charges since 1970. The company has been fined a total of IL3,950 for selling dairy products containing foreign bodies.

TRAINED IN FRANCE

Engineers, foremen and 16 workers were sent to France for three months to learn the casting techniques which are now in use here. Aluminium and magnesium are very light and strong metals and in great demand in aircraft production, but also in other fields.

Mr. Lucien said: "Our plant in the Pyrenees employs 400 men in

with its introduction in 1972/73.

Mr. Goldberg stressed that the problem of student accommodation must be dealt with on a long-term basis. The high rents out-of-town students have to pay for lodgings in Haifa force many of them to take on jobs, at a cost to their studies he said.

The President ended his report with a call for a \$50m. fund raising campaign, to start immediately and end in 1974, the Technion's Jubilee year.

The Board Chairman, Supreme Court Justice Moshe Landau, presided at the opening session.

On Sunday night, an honorary fellowship was conferred on Mr. Aaron Goldstein, M.C., chairman of the Contractors and Builders Association, in recognition for his work on behalf of the Technion and the Israel Technion Society.

The J.R. Sennar Memorial Library, established at the Technion by the Chicago Chapter of the American Technion Society, was dedicated yesterday. Mr. Sennar was a founder of the Chapter and a leading member until his death in 1968.

Insert Foreign Ministry appoint. P. 7

The Technion's Vice-President for Administration and Finance, Mr. Yosef Amir, told The Jerusalem Post last night that the general opinion in the Technion was firmly in favour of separate fund drives, and he believed it had been a mistake to stop them. From his talks abroad, he was convinced that, by stopping the university drives, general fund-raising had been adversely affected. This is because specific appeals induce voluntary workers and donors to greater efforts.

Technion plans \$50m. fund-raising drive

By YAA'COV FRIEDLER
Jerusalem Post Reporter

HAIFA. — Labour Minister Yosef Almozi told the Technion's Board of Governors yesterday that he doubted whether the Government would be able to maintain the present high rate of its aid to higher education. "I shall advise the Minister of Finance to permit the institutes of higher learning to resume their own fund-raising campaigns abroad."

Mr. Almozi, addressing the opening working session of the Board's annual meeting at Technion City, noted that, during the past 10 years, while the G.N.P. had risen by 15 per cent annually, the Government's participation in higher education had gone up by 30 per cent annually, and this year stood at IL330m.

The fund raising campaigns by the institutes were stopped by the Government two years ago, in order to concentrate on the Emergency Drives. Since then the institutes have been receiving lump sums, in addition to the regular aid, to compensate them for the loss of funds from their own drives.

Technion President Alexander Goldberg, in his report to the meeting, noted the introduction, next school year, of the credits system, which will enable students to study at their own speed, taking the subjects of interest to them most, instead of the present rigid curriculum with its fixed four-year courses and pre-determined programmes. He also referred to the proposal for splitting up the 20 Faculties and Departments into a number of autonomous schools, making for decentralization, that has become necessary, he said, in view of the Technion's constant growth. The Board is to examine several possi-

WALL STREET

Closing Monday, June 21, 1971

Dow Jones down 12.6 pts.

NEW YORK. — Stocks began sliding again towards the close after a temporary mid-session recovery of some of the sharp early losses.

The Dow Jones Industrial Average was down more than 12 points. It was off more than eight points in early trading. It recovered some of the loss and was off less than four points for a time.

Some limited bargain-hunting failed to ignite a rally. Investors continue wary because of the depth of recent losses, higher interest rates and a change by mutual funds to net redemptions for the first time.

Number of shares traded amounted to 16,500,000, as declining issues led those advancing by 1,143 to 286. The DJIA was down 12.63 points, closing at 876.53.

Franco-U.S. metal casting plant opens in Haifa Bay

Jerusalem Post Reporter

HAIFA. — The Sifal company (initials of Societe Israelienne-Francaise Alliage Leger) formally dedicated its aluminium and magnesium casting plant on the Haifa-Acre road yesterday, bringing to Israel the world's most advanced expertise in this field of industrial production. The company is a French-American-Israeli partnership. The Minister of Finance, Commerce and Industry, Mr. Pinhas Sapir, was present to wish it success, "and good labour relations."

The French partner, with a substantial interest in the IL3.2m. investment, is Messier, a leader in the field of hydraulic equipment and landing gears for aircraft. It was represented at the function yesterday by Mr. Rene Lucien, the company's President and General Manager, a renowned engineer and author known to aircraft manufacturers around the world for his advanced ideas on international cooperation in the industrial field.

The second partner is the KIM company, which specialises in aluminium extrusion, jointly owned by an American group and the Discount Bank (42 per cent), P.E.C. and a French group.

Referring to the immense deposits of magnesium in the Dead Sea, he thought it might be practicable to divert water from the Mediterranean to the Dead Sea, and derive cheap electricity from harnessing the energy generated by the difference in height of 400m. Cheap electricity is the key to the exploitation of the Dead Sea magnesium.

Mr. Lucien has brought to Israel his group's retired chief engineer, Emile Tetart, to guide the fledgling foundry here.

The company is managed by Aluf (res) Benyamin Kagan. The function was attended by investment bankers, industrialists, government and labour council officials.

TEL AVIV STOCKS

Slight changes

Jerusalem Post Financial Reporter

TEL AVIV. — The trend on the stock market was regular yesterday, with most changes, in either direction, being only 0.5 to one point. However, several stocks fluctuated more than this. For example, Cold Storage (200 only) lost three to stand at 168.5; Teva Registered (100 only) and Bearer (600 only) lost three and eight points respectively, closing at 422.5 and 430.5. Tel. Or (500), lost two, but Koor (500) gained 1.5 to close at 86.5.

The turnover in stocks was IL177,100, of which IL17,600 was in the variables.

The general index of share prices rose by 0.03 per cent to stand at 123.75.

The turnover in bonds was IL1,035,600, with dollar-linked falling and index-linked irregular. The black market dollar in Rehov Lillov was IL3.70-71, and the D.M. was IL1.04-05. A demand for \$25,000 caused the investment dollar to rise by one point to stand at IL3.79, and some \$99,200 was traded.

WALL STREET

Closing Monday, June 21, 1971

Dow Jones down 12.6 pts.

NEW YORK. — Stocks began sliding again towards the close after a temporary mid-session recovery of some of the sharp early losses.

The Dow Jones Industrial Average was down more than 12 points. It was off more than eight points in early trading. It recovered some of the loss and was off less than four points for a time.

Some limited bargain-hunting failed to ignite a rally. Investors continue wary because of the depth of recent losses, higher interest rates and a change by mutual funds to net redemptions for the first time.

Number of shares traded amounted to 16,500,000, as declining issues led those advancing by 1,143 to 286. The DJIA was down 12.63 points, closing at 876.53.

May have come over the Jordan CHOLERA CASE IN HEBRON HOSPITAL

By SUSAN BELLOS

This summer's first cholera case was reported yesterday afternoon. A 23-year-old Hebron man was diagnosed as suffering from the disease, after having been admitted to hospital in that town with a case of severe diarrhoea. Two other suspected cholera cases, men aged 75 and 55 from Hebron and Haihoul, are also in hospital in Hebron.

The first cholera case was diagnosed as being of the Ogawa strain, Dr. Daniel Brachott, Assistant Director-General of the Ministry of Health, told *The Jerusalem Post* yesterday. This differs from last summer, when most cases were of the Inaba variety, which originates in Persia, but it is not more serious, he said.

The appearance of the new strain was interesting, "in so far as this type originates in Africa and Egypt, and it gives us a clue as to where it might have come from this time," Dr. Brachott said that he tended to support Director-General Dr. Baruch Padeh's statement last night that the first cholera case was connected with the influx of summer visitors over the bridges — though it could also equally be a carrier who has incubated the virus since last summer.

Dr. Daniel Pridan, Chief Medical Officer for Judea and Samaria, said last night: "It looks as if it came over the bridges, but it is rather mysterious since we know of no cholera cases at the moment in surrounding Arab countries."

He pointed out that "there is no irrigation with sewage in the Hebron area" and that local leaders had been working for the past two weeks on health information in the West Bank, especially as regards washing vegetables and fruit, and personal hygiene. Chlorination had also been going on over the past weeks in the West Bank. "I have no idea," Dr. Pridan said, "why it should be Hebron and why it should be local people and not summer visitors."

He added that the young man with cholera, who was re-admitted on Sunday after being discharged

earlier, "is feeling fine. He wants to go home and he and his family are getting fed up being grilled all the time about their contacts."

If the virus did come over the bridge, Dr. Pridan added, it "must have been very quick, as the first visitors came last Tuesday and the first case was in hospital on Saturday."

Dr. Brachott, who is responsible for preventive medicine, confirmed last night that public health laboratories had been on the alert since spring, and he added: "We are all ready for it." Asked whether he expects more cases, he said "We have said all along that cholera may reappear this summer, and this case may not be the last."

Although Health Ministry officials last night emphasized that the danger "should not be exaggerated," they indicated that all diarrhoea cases are under the closest scrutiny, in Hebron at least.

The first cholera case in Israel last year was diagnosed in August. A woman from the Shati refugee camp in the Gaza Strip, has been hospitalised with a stomach ailment and cholera is suspected. The Health Ministry said the case is still being diagnosed.

Gvati blames Jerusalem for foul water

Jerusalem Post Knesset Reporter

"Water from the National Carrier does not reach Jerusalem, and the reason for the bad taste of the water in the Capital is neglect in keeping the reservoir clean." This was stated by Agriculture Minister Haim Gvati in reply to a question by Mr. Shmuel Tamir (Free Centre) in the Knesset yesterday.

Mr. Gvati's reply was in direct contradiction to an earlier statement by the Jerusalem Municipality, which complained that water from the Carrier had left a residue of algae on the reservoir's bottom.

The Minister explained that great care was being taken to ensure that no water from the Carrier reached Jerusalem taps, and said that, to the best of his knowledge, this had not occurred. He added that it was reasonable to surmise that the bad taste was due to the Municipality's lack of care in keeping its water supply clean, and suggested that the Municipality do something about the matter.

(Report on tourism — Page 7)

Max Fisher, U.J.A. and Jewish Welfare Fund leader, signs the founding scroll as Jewish Agency Executive Chairman Arye Pincus looks on.

AGENCY

(Continued from Page 1)
half-and-half arrangement was first mooted.

"By making us Zionists 50 (per cent) of the Agency, you automatically double our numbers by 50 new Zionists, thereby doubling our strength... may you expand your limits to the point that the names 'Zionist' and 'Jew' will be synonymous."

Noting that the agreement which took effect yesterday had been initiated last August, Mr. Pincus noted that it is already "very difficult to say that the partnership is between Zionists and non-Zionists." During this period, he said, "there has also been a deeper appreciation of the work of the agency," by which was meant not only "the tremendous fact of the fund-raising, which is of inestimable importance," but also "the tremendous function of the agency in the strengthening of Jewish life, in restoring Jewish consciousness, above and beyond the task of simply raising money."

Listing the tasks ahead, Mr. Pincus mentioned first the "tremendous burden" of the rescue of Jews from "countries of distress," the Arabs states and the Soviet Union, adding, "They too — the Jews living in those countries — must be ready. Ready in every respect."

Secondly, the task of doing "a number of things that have not been done" over quite a long period of time, and which have now "combined and have reached a dangerous boiling point." Mr. Pincus called on those present to "do all in our power to bridge the gaps," noting that "a gap exists" despite the "tremendous work" done in absorption in depth, "to increase the number of children of Oriental background who study in secondary schools and institutions of higher learning." "This gap," he said, "cannot be bridged in a short time; but we dare not let a day pass without working to narrow it."

The responsibility, Mr. Pincus reminded all his listeners, was now theirs.

The founding Assembly was opened by Mr. Max Fisher. Greetings were brought by Knesset Speaker Reuven Barkat, Chief Rabbi I.Y. Unterman, Jerusalem's Mayor Teddy Kollek, the outgoing chairman of Keren Hayesod, Dr. Israel Goldstein, and the general chairman of the United Jewish Appeal, Edward Ginsberg. Chief Rabbi Y. Nissim was in the audience.

Yeshayahu ahead in Labour race

Jerusalem Post Political Reporter

TEL AVIV. — Mr. Israel Yeshayahu, M.K., was considered yesterday to be ahead 60:40 in the race for Secretary-General of the Labour Party, to be elected by the Party's Central Committee tomorrow. His chief opponent is Deputy Education Minister Aharon Yadin.

Mr. Yeshayahu has the solid support of the Jerusalem and Tel Aviv branches of the Party, most of the Kibbutz HaMe'uhad and ex-Ahdut HaAvoda people in the towns, and most of the ex-Rafi people. The Haifa branch is for Mr. Yadin on the whole, as are the Youth Division and the Mapai-affiliated Ihud Hakibbutzim.

LIONS CLUBS in Israel open their annual conference at the B'nai B'rith hall, in Tel Aviv, today.

Conversions court takes a step forward

By DAVID LANDAU

Jerusalem Post Reporter

After an open rift which lasted several weeks, with the two problems of conversion and mamaserim in the background, the two Chief Rabbis, Isser Yehuda Unterman and Yitzhak Nissim, met amicably yesterday to plan jointly a meeting of the Chief Rabbinate Council scheduled for this afternoon.

Sources close to the Chief Rabbinate revealed that the Council will today grant the certificate of fitness as a dayon to Rabbi Moshe Malka, the Sephardi rabbi of Petah Tikva, a move Rabbi Unterman has vetoed until now.

Then, with Rabbi Malka's confirmation as a dayon by the committee of appointment, the itinerant bet din for conversions, which Rabbi Nissim has advocated, will be set up, with Rabbi Malka as the presiding judge.

Rabbi Unterman's earlier objection to Rabbi Malka's confirmation had stemmed from his opposition to a special bet din for conversions. He was said to have feared that such a bet din would take up the case of the mamaserim — the brother and sister soldiers whom a Petah Tikva bet din has adjudged

mamaserim. Rabbi Nissim, for his part, always vigorously denied that this was his motive in advocating the conversions court.

Relations between the two Chief Rabbis were strained for several weeks, with Rabbi Unterman criticising Rabbi Nissim in press interviews. Ten days ago, however, Rabbi Unterman sent Rabbi Nissim a letter seeking to heal the breach, suggesting closer cooperation between the two, and Rabbi Nissim agreed.

A source close to Rabbi Nissim vigorously denied reports that, in return for Rabbi Unterman's "conversion" on the conversions court, he had himself agreed to a firmer stand on the mamaserim. On the contrary, the source stressed, Rabbi Nissim maintains his position, and continues to hope that the mamaserim's case will soon find an acceptable solution.

The special conversions court, when set up, is to have an upan for would-be converts attached to it and under its supervision, where applicants will be taught the essentials of Jewish observance before their cases are considered by the court.

S.A. Jews will try to ease bad feeling

Jewish leaders in South Africa will make efforts to ease the tension between Israel and South Africa created over the announced donation of £10,000 worth of medical supplies to the O.A.S. fund for freedom fighters in Africa. Judge Israel Meisels, who heads the South African Zionist Delegation to the Reconstituted Jewish Agency made this clear in an interview with Israel Television last night.

Judge Meisels said the contribution was misinterpreted in South Africa as a contribution to Black guerrilla fighters.

On Sunday, several members of the South African delegation met the Prime Minister together with the Finance and Foreign Ministers to clarify the circumstances of the gift.

M.K. and police

(Continued from Page 1)

way leading past the Palombo Gate, blocking one section of it to traffic. The Knesset Guard requested the Police to remove the strikers.

Although the sequence of events is not yet clear, it appears the strikers refused to leave when the Police ordered them to do so. When the officers prepared to use physical force, the strikers — according to one report — sent some of their number back to their impromptu campsite to get some kerosene, and started spraying it over the gates.

At this juncture, the Police began removing the male strikers. These resisted, and the women and children joined in to help.

Mr. Levi, who held a press conference for parliamentary correspondents later, said he came up and saw some policemen kicking a woman in the stomach, and striking a boy of about 17. He said he asked one of the policemen what he was doing, and was shoved aside. He said he showed the same policeman his Knesset pass, and got the reply, "So what if you're a Knesset Member!"

Meanwhile, Mr. Levi said, he saw how policemen — grasping the youth by the hair and the feet — threw him onto a Police jeep. So he too jumped aboard, declaring he would go along to the police station to see what developed.

THE SEGEN David Usan Memorial Committee yesterday presented a TV set, musical instruments and sports equipment to a military unit at the Suez Canal. Lt. Usan was killed at the Canal a year ago.

Allon says N.R.P. creating crisis

Jerusalem Post Reporter

The current controversy over religious education is no longer the concern of the Education Ministry but is a general problem of relations within the Coalition. Education Minister Yigal Allon said at Lod Airport yesterday morning. Mr. Allon was speaking just before his departure on a two-week coast-to-coast U.S. tour which, according to Ministry sources, will be devoted "entirely to work for Israel Bonds."

Mr. Allon stressed that he expected that disagreements between the Labour Party and the N.R.P. are "likely to widen and further divide the two camps over issues which were frozen" until recently.

N.R.P. circles were complaining last night about the way the Education Minister treated the reorganization of the education system into districts "off-handedly and inconsiderately" ever since it was broached nine months ago.

School fees system attacked

Jerusalem Post Knesset Reporter

The Knesset Education Committee yesterday criticized several aspects of the proposed changes in high school fees, which are due to come into effect this September, with an overall rise of 38 per cent.

Despite the fact that the new fees structure will give more low and medium-income families free high-school education, the Committee felt that the criteria for defining a family's monthly income were incorrect. The Committee recommended that calculations be based on a family's net monthly income, as opposed to the Ministry's intentions of basing calculations on the gross income.

The Committee also queried the Government's decision to grant graded fees only for families who have an income of less than £1,300 per person per month, and demanded that the ceiling be raised. Deputy Education Minister Aharon Yadin, who presented the proposals to the Committee, promised that he would return at some later date with a series of amended, more detailed proposals.

Elias Koussa, Haifa lawyer, dies at 75
Jerusalem Post Reporter
HAIFA. — Elias Koussa, the veteran lawyer, died on Sunday of heart attack. He was 75. He is survived by a son, who lives in Canada and who is expected to arrive for the funeral, which will take place tomorrow.

The cortege will leave the deceased's home at 31 Rehov Abba's in the Greek Catholic Church in a Kenby Road at 4.30 in the afternoon. Elias Na'amnat Allah Koussa was born in Tripoli, Lebanon, attended the American University in Beirut and came to Palestine as an interpreter with the British Army in World War I.

He studied law and entered service of the Mandatory Government in the Attorney General's office. In the forties, he went into private practice, retiring in 1964. His wife died 18 months ago.

THE WOMEN'S Organization Council, in cooperation with the Information Services, is holding a protest assembly at 4.30 tomorrow afternoon, at Heichal Shlomo, Jerusalem, against the trials and suppression of Jews in the Soviet Union and the Arab countries. The Prime Minister is expected to attend.

Have a foothold in Jerusalem

If you've decided "there's no place like home" in Jerusalem then there's no place in Jerusalem like the Ariel-Jerusalem's first apartment-hotel. You couldn't choose a more splendid site or sight! From Abu Tor, your apartment window becomes a picture of the old city walls, the tower of David, Temple Mount, Mount Scopus, Zion and the Mount of Olives. When you're in Israel, you live in modern comfort amidst a peaceful, yet stirring ancient setting. When you're not in the country, your apartment is rented.

Some people have a second home in Miami or the Riviera. Your second home will be second to none, in Jerusalem, at the Ariel. All this can be yours with as small an investment as \$23,400, and a down payment of \$7,800. Think about it... You enjoy all the pleasures of a tourist — all the advantages of an investor, but none of the headaches of either!

*The balance can be financed with a 40% mortgage over 12 years at an interest rate of 8%.
